Cambodia: Twin-Cities cross-border collaboration meetings for malaria control and prevention are organized on a quarterly basis. On June 7, 2013, the Pailin, Cambodia Provincial Health Department hosted the gathering with the Chantaburi, Thailand Provincial Health Office. The participants shared information and developed a common work plan with achievable interventions along the border. Thai officials from Trat province and Cambodian officials from Battambang and Pursat provinces were also invited to participate.
