## JUMPP CLEAN ENERGY INVESTMENT CONFERENCE

FOR

THE GOVERNMENTS OF CAMBODIA, LAOS,  
THAILAND, AND VIETNAM

April 1 - 3, 2024  
Regency Ballroom  
Hyatt Regency Hotel Phnom Penh  
Phnom Penh, Cambodia

Organized by:  
The United States Energy Association (USEA)

In partnership with the Governments of the United States and Japan

## GOALS & OBJECTIVES

### **Japan – U.S. Mekong Power Partnership Goal:**

The Japan-U.S.-Mekong Power Partnership (JUMPP) supports the Mekong region's pursuit of energy security while encouraging greater regional power trade, integration, decarbonization and resilience. Through JUMPP, the United States and Japan partner with Mekong governments to promote a more sustainable electricity sector and quality power infrastructure development. U.S. technical assistance in coordination with Japan supports Mekong electricity regulatory and system development by working with national power market authorities on reliably integrating renewable energy, competitive power markets, enhancing cross-border power trade, and opportunities for private investment.

### **Workshop Objective:**

The JUMPP Clean Energy Investment Conference will bring together private sector and government stakeholders to support JUMPP partner countries in identifying clean energy technologies and investment opportunities. The conference, to be held in the Mekong region, will serve as a platform for fostering a better understanding of available advanced energy technologies to enable clean energy deployment in the Mekong region. The conference will include technical and commercial presentations, sharing of international best practices in clean energy investment, and the facilitation of networking opportunities between energy technology manufacturers and Mekong officials. Conference participation is open to energy stakeholders in the region not represented on the JUMPP Technical Advisory Group (TAG), including the Asian Development Bank (ADB), the Association of Southeast Asian Nations (ASEAN), Heads of ASEAN Power Utilities/Authorities (HAPUA), and private sector companies.
